About VitaFarm

VitaFarm is your trusted supplier of top-tier agricultural brands, based in Holland and serving the vibrant markets of Africa and the Middle East. We are dedicated to revolutionizing the agricultural landscape by bridging the gap between cutting-edge technology and the needs of farmers across continents.

Expertise

As part of Agriventures Group, VitaFarm can rely on a team with years of experience in the industry, as Agriventures Group has established itself as a trusted name in agricultural distribution, marketing and consultancy. Our team of experts meticulously selects and partners with renowned brands, ensuring that only the highest quality products reach our customers. From state-of-the-art machinery to essential agricultural inputs, we provide comprehensive solutions tailored to the unique requirements of each market we serve.

Exclusive partnerships

As the exclusive distributor for a diverse range of prestigious brands, we take pride in offering our customers unparalleled access to the latest advancements in agricultural technology. Our partnerships enable us to deliver innovative solutions that enhance productivity, efficiency, and sustainability in farming practices.

Our commitment

At VitaFarm, integrity, reliability, and customer satisfaction are at the core of everything we do. We are committed to fostering long-term relationships with our customers, built on trust, transparency, and mutual respect. We are here to support your success every step of the way.

VitaFarm is the distributor of Block Bond in the Middle-East and Africa.

About Block Bond

BLOCK BOND® stands out from all conventional products and is one of the most user-and cow-friendly hoof adhesives on the market.

With more than 25 years of experience in the adhesives industry, Gluetec Group have developed BLOCK BOND®, a formulation that guarantees easy and fast application even in difficult weather conditions.

BLOCK BOND® completely eliminates carcinogenic ingredients and for this reason differs significantly from the usual products on the market. The complete elimination of the hazard label H351 "May probably cause cancer" is a breakthrough for the user and the cow.

Claw adhesive

The two-component polyurethane adhesive BLOCK BOND®, was specially developed for claw care and the safe & fast bonding of wooden blocks with cattle claws. The main advantage is the high strength as well as the speed of application.

The patent-pending BLOCK BOND® formulation completely eliminates presumed carcinogenic ingredients.

With the newly developed BLOCK BOND® FAST, the processing time is reduced to 6 to 10 seconds.
